

ADVENTURE CAMP 2027

CAMP BERRY • WEEKLY ADVENTURES

Every day at Adventure Camp includes a provided lunch, swimming in the pool, and theme-specific lessons and activities. Throughout the week, campers also take part in range activities (archery and BB guns), the climbing tower, and boating on the water.

WEEK 1 • FANTASTIC FOREST

Nature Week • June 7–11

Step into the woods and discover the magic that lives just off the trail. Campers explore Camp Berry on foot, hike, notice the plants and animals around them, and practice being safe and respectful outdoors. It's a chance to slow down, look closer, and feel more at home in nature.

WEEK 2 • SPELLBOUND TARGETS

Range & Target Sports • June 12–18

Steady your hands and trust your aim. Campers spend time on the ranges learning safe shooting skills with archery and BB guns. Those who are ready can also try slingshots. It's a week of focus, patience, and the quiet thrill of hitting a target.

WEEK 3 • ARTS & ILLUSIONS

Art Camp with Campfire • June 21–25

Creativity takes the spotlight this week. Campers make art, explore simple magic and codes, and share what they've created around the campfire. It's a chance to try something new, express themselves, and see how imagination can feel like magic.

WEEK 4 • WATER WONDER

Swimming & Boating • June 28–July 2

The pool becomes a place of wonder and confidence. Campers learn swimming safety, practice water skills at their own level, and spend real time in the water. It's a week of splash, progress, and feeling braver around the water.

WEEK 5 • QUEST OF GAMES

Games Week • July 5–9

Play with a purpose. This week is filled with games, teamwork challenges, and an all-camp escape room. Campers invent games, solve puzzles together, and discover that working as a team makes the adventure more fun. Expect laughter, strategy, and a few surprises.

WEEK 6 • MAGIC IN THE MESS HALL

Knife Skills & Cooking Week • July 12–16

The kitchen becomes the classroom. Campers learn safe knife skills and put them to use making real food. It's a hands-on week of cooking, clean habits, and the satisfaction of creating something they can share.

WEEK 7 • ENCHANTED ENGINEERS

STEAM Week • July 19–23

Imagine it, build it, and make it better. This week is about design and problem-solving. Campers plan projects, use tools safely, and test their ideas. It's a chance to see how small changes can turn a good idea into something even better.

WEEK 8 • MAGIC, CHARMS & POTIONS

Science Camp • July 26–30

Science feels like magic this week. Campers run simple experiments, ask "why," and watch surprising results happen right in front of them. It's a week of curiosity, discovery, and the kind of wonder that makes kids want to keep exploring.

Discover the MAGIC all around you at Camp Berry!
