BLACK SWAMP AREA COUNCIL

Creating a QR Code to have Scannable Links

BOY SCOUTS OF AMERICA®

Prepared. For Life.®

Why QR Codes?

- QR Codes are easily scannable by smartphones to access a website or other online documents.
- On both Android and Apple devices, QR Codes can be scanned from the default camera app to take users to a website.

Test it Out!

How to Create QR Codes

- You will need to download an app to your phone to create the QR Code
 - For Android Devices:
<https://play.google.com/store/apps/details?id=com.relimobi.qr.code.scanner>
 - For Apple Devices:
<https://apps.apple.com/us/app/qr-code-maker/id513617634>

How to Create QR Codes

- After you've created the QR Code using one of the apps, you'll want to save the image to your phone and then e-mail it to yourself.
- Once e-mailed to you, you can insert the QR Code
 - On Documents, Flyers, Etc.
 - Print just the QR Code to lay on tables or hand out to individuals at JSNs, Popcorn Sales, etc.
