

SHOW AND SELL - UNITS

General

We have created the following guidelines using information published by the Center for Disease Control (CDC) and US Food & Drug Administration (FDA). We have established these protocols for any unit selling product at or near a retail establishment;

- Use pickup guidelines put in place by MCC *guidelines forthcoming.
- Unit kernel confirms clear communication of protocols to unit volunteers.
- Have families make appointments for pickup to avoid contamination. Families picking up from unit storage should be wearing personal protection equipment (PPE).
- Designate a specific pickup area where your product is stored.

Process/Set-up

- One adult checks in with vendor.
- Use pictures/poster or ONE sample of each product for display. These same specific containers should be used for all shifts. Cover samples with clear plastic.
- Hand sanitizer available onsite for volunteers and customers.
- **Product for wagon sale and show and sells (storefront) come from unit inventory, not 'kits' given to the scouts.**
- Stay a minimum of 6ft from entry, using pop-up tents for coverage. If scouts are allowed into the vestibule; they must be able to maintain 6' social distancing.
- Only Consumer touches product. Sell from cases only. Let the consumer pull their product from case. If unit pulls, ensure hand sanitizer is used.
- One adult handles all cash exchanged wearing gloves and using hand sanitizer often.
- Frequent sanitizing of table/chairs etc; at each shift change and as necessary throughout the shift.
- Usage of – PPE; hand sanitizer, face masks

Health

- Temperature checks taken by adult and reported to unit to be entered in log. ***Working on process.** Temperature should be taken for all unit/family member that will be onsite. If the answer to any question is yes – Scout or family member should relinquish their shift.
- If the answer to any question is yes – Scout or family member should contact their unit leader and relinquish their shift.

Sample;

			Do you have any of the following symptoms? Answer yes or no to each question						
DATE	TEMPERATURE ON DATE SELLING	NAME	Fever of 100.4 degrees or more? (parents should measure temperatures of all members on site and provide verbal confirmation of lack of fever)	Cough (excluding chronic cough due to a known medical reason other than COVID-19)	Shortness of breath	Sore throat	Diarrhea (excluding diarrhea due to a known medical reason other than COVID-19)	Have you travelled outside of Michigan in the last 14 days, excluding commuting from a home location outside of Michigan?	Have you had any close contact in the last 14 days with someone with a diagnosis of COVID-19?
